

OPITO-in-a-Box

TAILORED SERVICE

OPITO-in-a-Box is a simple but effective service for organisations seeking to become OPITO approved.

Many organisations have difficulty in understanding the exacting requirements they have to meet in order to become an OPITO approved centre. OPITO-in-a-Box breaks down the process into simple understandable components, using proven methodologies to ensure compliance at every stage.

SAFER Training have been providing support to organisations seeking OPITO approvals since 2008. We have experience of working with a wide range of clients, from small independent training centres through to large Government-run facilities. Additionally, we have the experience of working in many different parts of the world and understanding the cultural differences and barriers that our clients perceive as obstacles on the journey to approval.

OPITO approved centres are recognised internationally for delivering consistent, high-quality training.

OPITO-in-a-Box expedites the approvals process by ensuring compliance in the following areas:

- Management systems
- Physical resources
- Staff resources
- Training and assessment

OPITO-in-a-Box

Elements

Simple tried and tested approach to begin the application process:

- Gap analysis
- Review and planning
- Preparation and submission
- Audit support
- Health checks (post approval)

This service allows organisations to achieve OPITO approvals in a timely, efficient and cost-effective way.

Once approvals have been achieved, SAFER Training continues to support our customers to maintain existing approvals and secure new approvals. This allows our customers to focus on their core business - delivering world-class training.
