IOSH Managing Safely

INSTRUCTOR LED

IOSH Managing Safely is a course for managers and supervisors in any sector and any organisation. It informs attendees regarding the practical actions they need to take in order to manage health and safety with their organisation. Scenarios within the course illustrate the key HSE issues being discussed, this includes a selection of real life case studies which reinforces the concept as to why health and safety is such an essential part of everyone's job.

During the course, delegates will learn how to carry out risk assessments quickly and effectively, understand the process of auditing / measuring and discovering methods to identify / control hazards. Delegates will also gain a detailed knowledge of the law and how the legal system works regarding health and safety, along with steps they can take to protect the environment in their day-to-day work.

On successful completion of the assessment, delegates will be awarded a certificate from the Institution of Occupational Safety and Health (IOSH) – the largest international HSE organisation in the world.

- Internationally recognised HSE qualification

- Active staff involvement to improve the safety culture

- Improved company-wide safety awareness culture and appreciation of safety measures

- Consistent HSE messaging across the supervisor and manager community

SAFER
TRAINING

IOSH Managing Safely

Course Duration
Four days

Awarding Body
IOSH

Elements
Memorable and thought-provoking facts and case studies help drive the key safety messages home over the whole course. Each module is backed by clear examples and recognisable scenarios and summaries reinforce the learning points. The course includes checklists and other materials for delegates to experiment with when they get back to their own workplaces.

Eight interactive modules:

1. Introducing managing safely

2. Assessing risks

3. Controlling risks

4. Understanding responsibilities

5. Understanding hazards

6. Investigating incidents

7. Measuring performance

8. Protecting our environment
